

Automatic Air and Vacuum Valve for Potable Water

Model 997-00

2" Automatic air release and vacuum valve

| Type | Inlet | Maximum Operating Pressure In PSI (Bar) | Ø D Inch/mm | Ø D1 Inch/mm | H Inch/mm | H1 Inch/mm | Weight kg/lbs |
|--------|---------|--|----------------|-----------------|-----------------|-----------------|----------------------|
| Thread | 2" FNPT | 14.5 – 250 PSI 1.0 – 17.2 Bar | 6.3" 160 mm | 6.9" 175 mm | 12.0" 305 mm | 12.6" 320 mm | 5.18 lbs. 2.35 Kg |

Features:

Material:

- Body and outlet elbow: Delrin® (POM)
- Seat: Brass
- Float: Delrin® (POM)
- Seal: Ethylene Propylene Diene Monomer (EPDM)
- Protective cover: Polyethylene (PE)
- Screen: Stainless Steel

Maximum Air Release Capacity: 112 CFM (190 m³/hr)

Test pressure: 350 PSI (24.1 Bar)

Operating pressure: 14.5 – 250 PSI (1.0 – 17.2 Bar)

Maximum Temperature of Medium: 86° F (30° C), Potable Water
