

# Automatic Air and Vacuum Valve for Potable Water

**Model 992FP**

**Flood protection for HaVent automatic air valve set, H-TEC model 992**

Order #	Type	Outlet connection	Body Material	Weight lbs./Kg
9920001010	Accessory for Air valve set #992	1 1/2" d 50	PE	16.3 lbs. 7.4 Kg

**Features:**

For below ground installation in addition to an H-TEC HaVent automatic air valve set model 992. This flood-proof device is retrofittable to existing set installations under pressure.

Below ground installation with pipe extension either through:

1. PE connector 1 1/2" / d50
2. Welding sockets
3. Butt-welding

The height of the exhaust air pipe is variable.

Waterproof up to 16 ft. / 5 m water column.

**Advantages:**

- Easy maintenance: open the waterproof lid for access to the air release valve.
- Less public space consumption
- Flexible positioning of pipe extension
- Accident-proof installation

Scope of delivery: PE chamber with gasket and screw cap

Outlet pipe: PE d50 (1 1/2"), 0.7" / 18 mm long
